Change pictures quickly and easily with Classic Rail

The Classic Rail is a wall rail that is often used in galleries and at exhibitions. This hanging system has an open J-shape which, with the aid of rods and sliding springs, makes it easy to hang pictures and other wall decorations. If you are looking for a discreet alternative to a rod, it is possible to use a cylinder hook with a transparent perlon cord in the rail. Depending on the weight of the picture or wall decoration, various hooks may be slid onto the perlon hanging wire.

A hanging rail for a contemporary interior

The Classic Rail is a J-shaped, open rail system with a modern look. This picture hanging system is available in white, aluminum and black. The rods that may be placed in the rail vary in thickness from 2 to 3 mm, and have a maximum load capacity of 20 kg. Available in white or steel, the rods use various sliding springs.
