DISPLAY IT LED FLEX

Make a statement with LED panels

This cable system, with LED lighting, enables documents, products and services to be displayed perfectly. It is ideal as a display system in display cabinets, where the information can stand out both day and night! The rail can be mounted to the wall or the ceiling. The adaptors can be twisted into and out of the rail in an instant, allowing flexible use of the system.

DISPLAY IT LED FIXED

An eye-catcher on the wall

The Display It LED Fixed cable system is mounted to the wall or ceiling and because of the LED panels, this creates a striking display. Like the Flex version, the Display It LED Fixed can be used in display cabinets or in other places in a building. The content of the panels can be changed in no time.

DISPLAY IT LED PANELS

The A3, A4, A2 and A1 LED panels can be used in landscape and portrait format. The 2x A4 and 3x A4 LED panels can only be used in portrait format. All LED panels are equipped with bright LED lighting. The steel cables run through an auto-grip mechanism through the LED panels, connecting these together. This gives a professional, streamlined display and allows the height of the panels to be quickly and easily adjusted. This system allows double-sided displays: translucent paper can be inserted into the front and back of the LED panels.

DISPLAY IT FIXED

Display It: professional and orderly

The Display It presentation system gives you a professional and orderly way to display your announcements or documents. The system's acrylic frames are easy to mount and adjust to the desired height. Thanks to the E-Clip for Display It, you can change the contents of the acrylic frames in seconds. The clip also makes it easy to connect the frames to one another, making both horizontal and vertical displays possible. This display system is ideal for estate agents and is often used as a 'face wall' for photos of staff displayed on the wall in hospitals and other institutions. Display It is available in Flex and Fixed mounting models. The Display It Flex version is used in combination with a hanging rail and stainless steel rods that are easy to reposition along the rail.
