

HOOKS & COMPATIBILITY

Depending on the weight of a frame or other wall decoration, the right picture hook must be selected. The wide product range offers hooks with maximum load capacities varying from 4 kg to 20 kg.

The maximum weight carrying capacity of a picture hook is only valid when the frame is correctly applied to the hook. This illustration shows how to correctly charge the picture hook.

MICRO GRIP

Micro Grip represents the newest generation of hooks. A high-quality plastic reinforced with fibreglass was chosen for this hook, leading to a 70% reduction in the use of materials compared with previous generations of hooks. In addition to the ecological advantages, the hook is extremely lightweight as a result, and very easy to use. The **Micro Grip** technology has been developed and patented by Artiteq. To guarantee the quality of the **Micro Grip** hooks, Artiteq has developed quality assurance procedures together with TÜV Nederland. The execution is under supervision of TÜV Nederland.

- LIGHTWEIGHT
- STRONG (20 kg)
- ERGONOMIC
